## **DETAILED ACTION**

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

 Claims 1-25, drawn to a method of oral sampling, classified in class 600, subclass 573.

- II. Claims 26-39, drawn to a test kit, classified in class 206, subclass 569.
- 2. The Inventions of Group I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the claimed process could be used for taking urine specimens.
- 3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
- 4. A telephone call was made to Michael Kroll on February 26, 1999 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 3301
